

TRAFFIC & TRANSPORTATION ENGINEERING SPECIALISTS

EMPLOYMENT OPPORTUNITIES

Here we grow again! CTS is currently seeking to recruit a highly motivated and ambitious individual to strengthen our team in response to an increasing demand for our services.

SENIOR TRAFFIC ENGINEER

CTS has an opening for a professional engineer registered with EGBC (or equivalent) with ten (10) or more years experience in traffic engineering, traffic operations and transport planning, to join our team. Registration as a certified Professional Traffic Operations Engineer (PTOE) is highly desirable. Duties will include managing and undertaking traffic engineering assignments and pursuing business opportunities with existing and new clients.

You will have a proven track record in providing project management, traffic engineering, traffic and parking operations, transport planning and public presentation services. You are a creative thinker and will be able to solve problems with minimal supervision. Familiarity with multi-modal traffic engineering analysis, traffic signal systems, traffic control devices and software applications including HCS and Synchro is mandatory.

All candidates must possess excellent verbal and written communication skills and must be able to work both independently and within project teams. CTS offers competitive salaries and incentives, a comprehensive benefits package, professional development and networking opportunities, and flexible work schedules.
